

**16,096** people served,  
engaged, **EMPOWERED!**

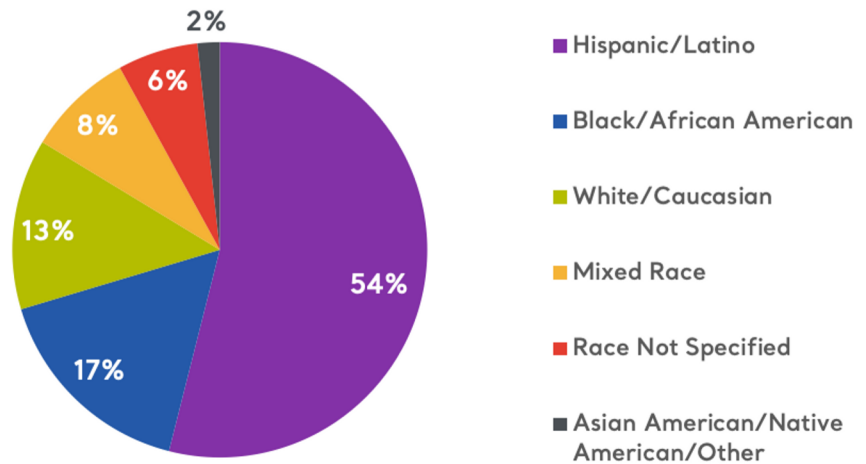

## Districts Served

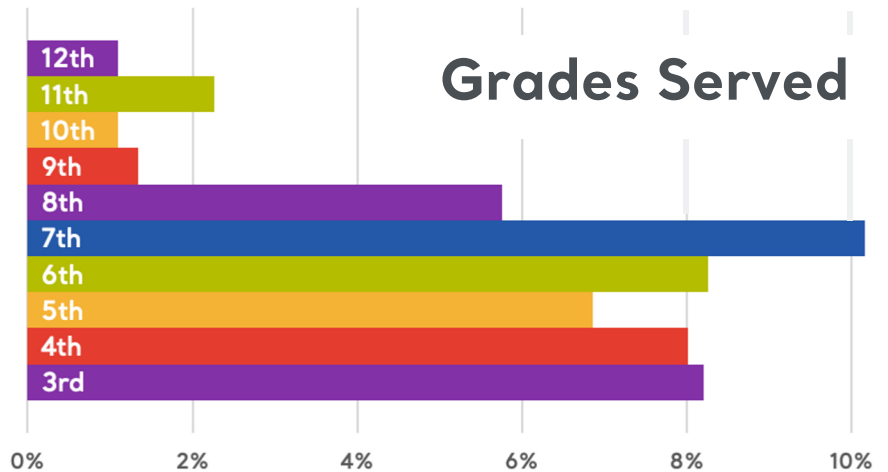

Alief ISD  
Austin ISD  
Del Valle ISD  
Fort Bend ISD  
Georgetown ISD  
Hays CISD  
Houston ISD

KIPP Austin  
Manor ISD  
Private Schools  
Promesa Schools  
San Marcos ISD  
Wayside Schools  
YES Prep Charter

## Race & Ethnicity Served

## Grades Served

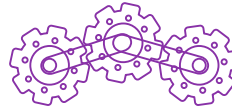

**78%** of the girls served through Girl Connect come from low resource households, as measured by eligibility for free/reduced lunch programs.

# In post-surveys from Girl Connect, Camp, and Pathfinder programs...

**89%** reported belief in their own ability to achieve their goals

**90%** reported the ability to solve problems if they give their best effort

**98%** said they would recommend Girls Empowerment Network to a friend

**87%** reported pro-social bonding with other girls

## What Our Network is Saying...

Girls Empowerment Network didn't toss self-confidence and courage in my lap. They didn't write out a list of instructions for me to follow everyday for me to be powerful. They gave me a mirror and said everything I need is in me, and I'm always going to be grateful for that.

**Pathfinder Participant**

I am so thankful to be a part of this group. I trust you so much more than anybody else at my school.

**Girl Connect Member**

**School Partner**

I have seen a huge change in my girls that attended Girl Connect. They have the confidence they need as girls and Girls Empowerment Network empowers them to accomplish their goals!

This conference taught me that women are strong and powerful people!

**We Are Girls Attendee**

Some girls don't feel comfortable in who they are, but Camp lets you take that mask off and be you! Plus, the counselors actually listen to you and say "I feel you". They are very special, they understand you.

**Camp Attendee**

By proxy, y'all have empowered me too. I have found my voice and I use it now.

**Parent**

# A Deep Dive Into Our Exciting New Evaluations!

Beginning with our summer 2019 programs, we have rolled out a new survey for use across our programs. Using best practices for assessing self-efficacy (Bandura, 2006; Pajares, Hartley, & Valiante, 2001) and our experience administering surveys to girls in our program, Program Evaluator, Sarah Miller-Fellows, developed a master question set to assess self-efficacy in each of the "6Cs" we target through our programming: collaboration, creativity, communication, confidence, critical thinking, and coping skills. These new questions assess both self-efficacy specific to each C and general self-efficacy, as previous literature has shown self-efficacy in one domain transfers to self-efficacy in other domains (Urduan & Pajares, 2006).

41 of our summer 2019 Pathfinder Leadership Summit participants completed our new pre and post surveys. Here are some of those results.

6 Cs Matched Pre-Post	Average Pre	Standard Deviation	Average Post	Standard Deviation	Growth	T-Test
Communication	3.550	0.813	4.596	0.403	1.046	0.000
Confidence	4.163	0.561	4.715	0.317	0.553	0.000
Collaboration	3.958	0.650	4.850	0.250	0.892	0.000
Critical Thinking	4.125	0.696	4.750	0.358	0.625	0.000
Creativity	4.200	0.758	4.650	0.521	0.450	0.001
Coping Skills	3.863	1.074	4.650	0.521	0.788	0.000

This data indicates that Pathfinder participants showed statistically significant growth in self-efficacy for ALL 6Cs!

Thank you for being a partner, and helping Girls Empowerment Network ignite the power in girls by teaching them the skills to thrive and believe in their ability to be unstoppable!
